EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 7 and 13, the prior art does not disclose or fairly suggest a mountable condition monitoring system or device for detecting an overheat condition in a hydrogen-cooled electric generator, comprising a hydrogen-side component comprising a detector means for detecting sub-micron particles in the hydrogen indicative of the overheat condition.

The examiner notes that while it is known in the art of a condition monitoring system (20) for detecting an overheat condition in a hydrogen-cooled generator, comprising a generator housing (70) containing hydrogen within the electric generator having an access opening with an access flange; a mountable condition monitor comprising a hydrogen-side component (30) and an air-side component (34)-(37) separated by a barrier wall (20) having a throughway (34)-(37) for passing electrical conductors from the hydrogen-side component to the air-side component and the air-side component further comprises an input/output means (34)-(37) (see for example *Jenkins et al – US 4,818,975 – Fig. 5 and col. 3, lines 65-68 and col. 4, lines 1-17*), the prior art does not fairly suggest a detector means, comprised in the hydrogen-side component, for detecting sub-micron particles indicative of overheat conditions of the hydrogen.

The remaining claims 1-6, 8-12 and 14-22 are allowable based on their dependency.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Faye Polyzos whose telephone number is 571-272-2447. The examiner can normally be reached on Monday thru Friday from 7:30 AM to 4:00 PM.
